

Julia Michaels, 17

i had a dream
we were riding in a drop top down the block
taking our time doing whatever we want
you put your hand on top of my hand
and just like grease
we were summer loving
had our first kiss
and we hit the ground running
you put your hand on top of my hand

no dark side of us
no fights just because
no silence that kills
no, no sleepiness nights
just you and i
I love how loves feels

so can we stay in this dram like we are 17
making love and getting high, you and me
where we never get angry or bitter or lonely
can we stay in this dream like we are 17?

where we keep goin' nonstop down the block
sneaking our way into evey single club
and I have one too many I think
and this thing we have
we didn't know what was it
we didn't know we could get messed up from it
and all we really wanted was

no, no sleepiness nights
just you and i
I love how loves feels

so can we stay in this dram like we are 17
making love and getting high, you and me
where we never get angry or bitter or lonely
can we stay in this dream like we are 17?

pin you down
kiss me now
we can go in for another round
pin you down
come kiss me now
pin you down
kiss me now
we can go in for another round
pin you down
come kiss me now

i had a dream
that we danced at a crosswalk
down the block
didn't even care that we made the traffic stop
you put your hand on top of my hand

so can we stay in this dram like we are 17
making love and getting high, you and me
where we never get angry or bitter or lonely
can we stay in this dream like we are 17?

pin you down
kiss me now
we can go in for another round

pin you down
come kiss me now
pin you down
kiss me now
we can go in for another round
pin you down
come kiss me now
