Julia Michaels, 17

i had a dream
we were riding in a drop top down the block
taking our time doing whatever we want
you put your hand on top of my hand
and just like grease
we were summer loving
had our first kiss
and we hit the ground running
you put your hand on top of my hand

no dark side of us no fights just because no silence that kills no, no sleepiness nights just you and i I love how loves feels

so can we stay in this dram like we are 17 making love and getting high, you and me where we never get angry or bitter or lonely can we stay in this dream like we are 17?

where we keep goin' nonstop down the block sneaking our way into evey single club and I have one too many I think and this thing we have we didn't know what was it we didn't know we could get messed up from it and all we really wanted was

no, no sleepiness nights just you and i I love how loves feels

so can we stay in this dram like we are 17 making love and getting high, you and me where we never get angry or bitter or lonely can we stay in this dream like we are 17?

pin you down kiss me now we can go in for another round pin you down come kiss me now pin you down kiss me now we can go in for another round pin you down come kiss me now

i had a dream that we danced at a crosswalk down the block didn't even care that we made the traffic stop you put your hand on top of my hand

so can we stay in this dram like we are 17 making love and getting high, you and me where we never get angry or bitter or lonely can we stay in this dream like we are 17?

pin you down kiss me now we can go in for another round pin you down come kiss me now pin you down kiss me now we can go in for another round pin you down come kiss me now
