

# Julia Nunes, August

sweet night and our chemistry  
make my rapid heart beat naturally  
and our organic minds, while the others climb  
we contemplate, what is time

the night is dark and the lights are low  
but the laughter rises, and continues so  
time flies by

sweet night and our chemistry  
make my rapid heart beat naturally  
and our organic minds, while the others climb  
we contemplate, What is time  
time flies by

lie on the porch with my head in your lap  
this is a simple combination that makes me so happy  
and these could be the happiest days of my life

yeah, lie on the porch with my head in your lap,  
this is a simple combination that makes me so happy  
yeah, these could be the happiest days of my life

((The night is dark and the lights are low  
but the laughter rises, and continues so  
time flies by))

sweet night and our chemistry  
make my rapid heart beat naturally  
and our organic minds, while the others climb  
we contemplate, what is time  
time flies by ((time flies by))
