

Julia Volkova, Didn't Wanna Do It

You'll be calling me a bitch
But I gotta tell you about your best friend
Her body's so hot
I had to give her my attention
She took my number
Asked me if I wanna hang out
And all I'm thinking
Is how I get her back to my house

One thing lead to another
We looked at each other
Then she started kissing and feeling me up
I know I said there isn't another
She's a wonderful lover
And we began to rock, rock, rock?

I didn't wanna do it
But I did
I didn't wanna do it
But I did

I didn't wanna do it
She was all over me
But I did
I could not resist her

I didn't wanna do it
She's looking so sexy
But I did
And I had to freak her

She came to my crib
I told her meet me at the hot tub
Started getting undressed
Gave her patron and told her drink up
How was I supposed to know
That when we're drunk it makes us do things
She turned into a hoe
And so I turned into a pimp g

One thing lead to another
We looked at each other
Then she started kissing and feelin' me up
I know I said there isn't another
But she's a wonderful lover
And we began to rock, rock, rock?

I didn't wanna do it
But I did
I didn't wanna do it
But I did

I didn't wanna do it
She was all over me
But I did
I could not resist her

I didn't wanna do it
She's looking so sexy
But I did
And I had to freak her

Sorry but I have to be honest
I don't wanna lead you on, you should move on

Wish I could say this never happened
Then you wouldn't be crying
But I'm only human
