

# Julian Lennon, If You Only Knew

Hans poulsen

If you only knew  
What we've been through  
To get this far  
You wouldn't be so cool  
So cruel  
So clever  
If you only knew  
What we've been through  
To save this star  
You wouldn't be so cold  
So bold  
So together

Time was once I told you  
They bought and sold us round  
But we will keep surviving  
Love will keep reviving those who've drowned

Don't let us down  
All our fathers have fallen for a dream  
Don't give up ground  
Surely you've been where we've been  
And it's not a crazy dream  
No, it's not a crazy dream

If you only knew  
What we've been through  
To get this far  
You wouldn't be so cool

So cruel  
So clever  
If you only knew  
What we've been through  
To save this star  
You wouldn't be so cold  
So bold  
So together

Time was once I told you  
They bought and sold us round  
But we will keep surviving  
Love will keep reviving those of us who've drowned

So don't let us down  
For our fathers have fallen for a dream  
Don't give up now  
Surely you've been where we've been  
And it's not a crazy dream  
No, it's not a crazy dream

If you only knew  
What we've been through  
To get this far  
You wouldn't be so cool  
So cruel  
So clever  
If you only knew  
If you only knew  
If you only knew  
If you only knew
