

# Julian Lennon, Love Don't Let Me Down

What is it like to feel alone,  
What is it like without a home  
Don't you believe in who you are  
Open your heart and you'll go far...  
You've got to believe in what you say  
You've got to believe in one more day  
Try to reach out and don't let go  
Dreams are real, don't You know...

Hold me, say it's real  
Love don't let me down  
Hold me, say it's real  
Love don't let me down  
Love don't let me down

Everyone hurts deep down inside  
Everyone sings a lullaby  
Everyone sees the need for change  
Everyone feels they're not to blame  
Knowing just when to do or die  
Knowing just when to laugh or cry  
The feeling of doubt within your soul  
The feeling when You are whole,

Hold me, say it's real  
Love don't let me down  
Hold me, say it's real  
Love don't let me down  
Love don't let me down...

If you could see what I can see  
Feel alive, feel the love, You could be free  
Love don't let me down

If you could feel what I can feel  
Come along for the ride, because it's real  
Love don't let me down...
