

Julian Lennon, No One But You

Aah ooh aah ah ah ah
No one but you pulls on the trigger
No one but you gives birth to life
No one but you controls the power
To do what is wrong or what is right
In your life you question whose to blame
But you find out just like me,
No one but you.
In your life you wonder what to change
But you find out just like me,
No one but you.

No one but you can have the glory
But no one but you can feel the shame
And no one but you can make a difference
You're either in love
Or you're either in pain.

In your life you question whose to blame
But you find out just like me,
No one but you.
In your life you wonder what to change
But you find out just like me,
No one but you.

Isn't it you and i
That makes the sunshine
Even if we are passing by or if we live forever
Isn't it you and i
That makes the world keep turning round and round

No one but you pulls on the trigger,
And no one but you gives birth to life,
No one but you controls the power,
To do what is wrong or what is right.

(guitar solo)

In your life you question whose to blame
But you find out just like me,
No one but you.
In your life you wonder what to change
But you find out just like me,
No one but you.

You got to learn just to take your time
No one but you
You got to calm down one day
You got to take your time
No one but you
Ooooh

You got to learn just to take your time
No one but you
Ooooh
No one but you

In your life..
No one but you.
