

Juliana Theory, Goodnight Starlight

Close your eyes.
You're beautiful when you're sleeping.
Tonight may all your dreams come true.
It's so nice to hold you while you're sleeping,
When I'm sleeping next to you.

And what we've got is something special,
And what we are is a perfect match.
And 3000 miles could never come between us,
No matter what we do, it's always you and me and you and
It's always me and you.

I know sometimes it's lonely while you're sleeping.
Well, it's lonely for me too.
It's alright. Just know that while I'm sleeping,
That I'm dreaming of you.

And what we've got is something special,
And what we are is a perfect match,
And 3000 miles could never come between us.
We always have the stars to wish upon from where I'm at,
And where you are.

Good night.
Good night.
Good night.
Good night.
