

Julianne Hough, I

We could spend the day maybe melt away
On some romantic coast, out in the tropics
Oh baby, we could disappear
Wintertime is almost here
You'll stay warm with your hands inside my pockets

CHORUS:

Nobody says we've gotta stick around
Sometimes you've gotta look inside
And find your own way out
Somewhere you'll find an answer you can use
But if it were me, I'd just be with you
You find it hard to sleep
You fight the dark and try to keep some distant light
To hold it all together
Turning circles on your Ferris wheel
Aren't you tired of climbing that hill?
I could be the rain falling in your desert

REPEAT CHORUS

Oh baby, we could run away
Search the world for a better place
But me, I'll always wanna stay with you

REPEAT CHORUS

Oh, if it was me, I'd just be with you.
