

Julianne Hough, My Hallelujah Song

CHORUS:

Look at me, can't believe
I finally made it here
Feeling like I'm where I belong
Singing my hallelujah song

Hard to find, took some time
But I think that I might be hittin'
On what's been missing all along
Singing my hallelujah song

It's a highway sliding through a Sunday afternoon
It's a snapshot smiling like we ain't got nothing to lose
It's the peace in knowing that love is gonna be gone someday
But you only get more when you give it away
Yeah, yeah, yeah

It's a sweet pray knowing someones up there hearing you. Define punch lines take a little time, but

Look at me, can't believe
I finally made it here
Feeling like I'm where I belong
Singing my hallelujah song

Hard to find, took some time
But I never was by myself
There were angels helping all along
Singing my hallelujah song

My hallelujah
My hallelujah
Singing my hallelujah song
