

Julie Brown, Boys 'R A Drug

Hey

Stop, girl, before you give him what he's after
Slow down, you could be headed for disaster
I know how good he makes you feel
But are you sure his love is real

Your heart's a target and he's got a gun
It's not too late to run, run, run
Stick around, you'll end up like me
Hooked on boys, and I will always be
Don't you know

Boys 'r a drug
Just a big addiction
I can never get enough
Boys 'r a drug
Good time prescription
Got to find a boy to love

Didn't listen, I thought I was above it
One taste and I found out I love it
Could be heaven and could be a mistake
The bad habit that's too fun to break

A knight in shining armor
He's the thorn in your side
Take you to the moon, take you for a ride
He'll make you weak if he gets close
It's just too easy to overdose

You know that boys 'r a drug
Just a big addiction
I can never get enough
Boys 'r a drug
Good time prescription
Got to find a boy to love
Boys 'r a drug
(Never get enough)
Just a big addiction
I can never get enough
Boys 'r a drug
(Got to find a boy to love)
Good time prescription
Got to find a boy to love

I try not to lose control
But he knows I always give in
Just can't resist his sweet temptation
He's under my skin

My heart's a target and he's got a gun
I should know better, I should run, run, run
I get so weak when he gets close
It's just too easy to overdose

You know that boys 'r a drug
Just a big addiction
I can never get enough
Boys 'r a drug
Good time prescription
Got to find a boy to love
Boys 'r a drug
(I can never get enough)

Just a big addiction
(Boys)
He feels so right
(Never get enough)
Boys 'r a drug
(Got to find a boy to love)
Good time prescription
Keep you up all night
(Find a boy to love)

Boys 'r a drug
Just a big addiction
I can never get enough
Boys 'r a drug
Good time prescription
Got to find a boy to love
Boys 'r a drug
Just a big addiction.
