

Julie Brown, Shut Up And Kiss Me

Whenever we go out you always show up right on time
Flowers in your hand
You tell me that I look so nice
You open every door
A good girl couldn't ask for more
My patience is wearing thin
Stop treating me like just a friend

CHORUS

You talk too much
I need your touch
Come on shut up and kiss me
You're Mr. Right
Turn out the light
Come on shut up and kiss me

Why are you holding back
When you could be holding me instead
It's time to bring to life the images inside my head
I know you want it too
So much I could show to you
Put your trust in me
Promise that I'll set you free

CHORUS

I can't wait until you're in my arms
I knew right from the start
I would win your heart boy

CHORUS
