

Julie Doiron, Snow Falls In November

when the snow falls this november
its such a great place to be
and when the snow falls this november
I see you and me
open the dark curtain
the sky is just getting light
we stay right where we are
all the way till tonight

through the window
we watch the snow
kids walking in snowpants
we dont go nowhere
not today, not tonight

won't tie up my hair
won't get dressed too
i'll just stay here next to you
we dont go nowhere
let the baby sleep
let the dogs rest too

through the window
we watch the show
kids walking in snowpants
we don't go nowhere
not today not tonight
watch the snow all night falls and stay here till november is through
watch the snow all night falls and stay here till november is through
watch the snow all night falls and stay here till november is through
watch the snow all night falls and stay here till november is through
