

Julie Doiron, Waiting For Baby

We've been waiting so long for you
It feels like you will be here real soon
I know I can hardly wait this whole thing through
Everybody seems real happy too

I can tell 'cause they all have smiles for you
And we know there's so much we will do
And when you finally come to us my dear
I hope we will be everything you need

So we know there will be many sleepless nights
And I worry that I won't do things right
And I hope you will love us with all your might
Little one don't you worry about a thing

We may be new but we'll do our best to see
That you will get all the love you need
And when you finally come to us my dear
I hope we will be everything you need
