

# Julie Doiron, Waiting For Baby

We've been waiting so long for you  
It feels like you will be here real soon  
I know I can hardly wait this whole thing through  
Everybody seems real happy too

I can tell 'cause they all have smiles for you  
And we know there's so much we will do  
And when you finally come to us my dear  
I hope we will be everything you need

So we know there will be many sleepless nights  
And I worry that I won't do things right  
And I hope you will love us with all your might  
Little one don't you worry about a thing

We may be new but we'll do our best to see  
That you will get all the love you need  
And when you finally come to us my dear  
I hope we will be everything you need
