

# Julien-K, Forever

You will find  
That living without me is not so easy  
Keep in mind  
That I need you as much as you need me  
Who we are  
Not just vagrants looking for answers  
Carry on  
It's not like life-crushing nightmare

Whenever I dream of you  
It seems like forever is not so long  
Whenever I see the truth  
All I've wanted, everything for you

And I know  
They'll try to tempt you with shallow vices  
So darling, let go  
There's more to life than broken promises  
I've waited so long  
For you to fall into my arms

Whenever I dream of you  
It seems like forever is not so long  
Whenever I see the truth  
All I've wanted, everything for you

Whenever I dream of you  
It seems like forever is not so long  
Whenever I see the truth  
All I've wanted, everything for you

No reason to feel so lost and alone  
All I want is to see  
Through these clouds of doubt  
That are in me

Whenever I dream of you  
All I've wanted, everything for you
