

# Julien-K, Spiral

There is no side you're on  
Only a great open divide  
I cannot get around  
And what you say you want  
Is never closer to the truth  
We're in flight  
Out of heaven now

And down to earth we spiral  
A turn into what we'd die for  
Each day a new denial  
Each day we set a different fire

I see no future now  
I see us counting down the days  
Always looking for the out  
Not what we say we want  
But love is throwing us away  
Cannot stay  
Turned around

And down to earth we spiral  
A turn into what we'd die for  
Each day a new denial  
Each day we set a different fire

And down to earth we spiral  
Our fate harder now to swallow  
Each day a new denial  
Each day we set a different fire

And down to earth we spiral  
A turn into what we'd die for  
Each day a new denial  
Each day we set a different fire

And down to earth we spiral  
Each day a new denial

And down to earth we spiral  
Each day a new denial
