

# Juliette And The Licks, Long Road Out Of Here

It's too late  
All the lights are out on the kids at play  
Now I've lost my way, but anyway

Heartache and pain baby  
They know my name right now  
And they're calling me

Underneath the ground as my final place  
Oh how you love me. Anyway

It's a long road out of here  
Don't leave the light on  
I ain't comin' home  
You gotta be strong

It's a long road out of here  
But when you love me like you do  
Makes it hard for me to leave you

Distance, my friends  
Is closer when you reach the end  
Between time and space  
Oh I can't erase. Anyway

It's a long road out of here  
Don't leave the light on  
I ain't comin' home  
You gotta be strong

It's a long road out of here  
But when you love me like you do  
Makes it hard for me to leave you

And you carry all the weight of the world in your hands  
And you're giving all the love you never thought you had  
And all we know to believe  
Is closing the eyes on all my dreams  
I guess I'll just wander on and on

Oh, I guess I'll just wander on and on
