

Juliette And The Licks, Long Road Out Of Here

It's too late
All the lights are out on the kids at play
Now I've lost my way, but anyway

Heartache and pain baby
They know my name right now
And they're calling me

Underneath the ground as my final place
Oh how you love me. Anyway

It's a long road out of here
Don't leave the light on
I ain't comin' home
You gotta be strong

It's a long road out of here
But when you love me like you do
Makes it hard for me to leave you

Distance, my friends
Is closer when you reach the end
Between time and space
Oh I can't erase. Anyway

It's a long road out of here
Don't leave the light on
I ain't comin' home
You gotta be strong

It's a long road out of here
But when you love me like you do
Makes it hard for me to leave you

And you carry all the weight of the world in your hands
And you're giving all the love you never thought you had
And all we know to believe
Is closing the eyes on all my dreams
I guess I'll just wander on and on

Oh, I guess I'll just wander on and on
