

Juliette And The Licks, Money In My Pocket

Money in my pocket
Setting fire to a second rate dream
Cash it or check it
You gotta change that dead red light to mean green
The crime is time and I climb
And you say everybody get in line
Pay the toll boss
Tell me what it costs, now

The world's gone crazy
But I've got my friends
Nothing's gonna save me now
This is where the heartache ends, and begins.

Oo oo ooh, what's that smell
Skynyrd never put it so well.
I entail, Betty blue eyes
All made up just to cause a swell
The long arm of the law is up my back
Giving me a heart attack
Cash it or check it
On the ride, on the ride away

The world's gone crazy
But I've got my friends
Nothing's gonna save me now
This is where the heartache ends, and begins.

The world's gone crazy
But I've got my friends
Nothing's gonna save me now
This is where the heartache ends, and begins.

Money in my pocket
Setting fire to a second rate dream
Cash it or check it
You gotta change that dead red light to mean green
You know the Licks are alive!
They come to bruise your heart
So open up your damn mind!
On the ride, on the ride away

The world's gone crazy
But I've got my friends
Nothing's gonna save me now
This is where the heartache ends, and begins.

The world's gone crazy
But I've got my friends
Nothing's gonna save me now
This is where the heartache ends, and begins.
