

Juliette And The Licks, Sticky Honey

Money money money money
Sticky sticky sticky honey
Man lands on mars
Man rips off his broken parts

And your gone and your gone
Now you wanna get it on
And you won't and you won't
Why you wanna do me wrong

Woman woman woman woman
You gotta let go your swollen tounge
Pleading pleading pleading with a man
Gave him birth to Aphrodite's son

And your gone and your gone
Now you wanna get it on
And you won't and you won't
Why you wanna do me wrong
When your gone when your gone
Why you wanna get it on
And you won't no you won't
Why you wanna do me wrong

You got the best damn blues that I've ever seen
And I'm swimming like a shooting star across the galaxy
You got the best damn blues

And your gone and your gone
Now you wanna get it on
And you won't and you won't
Why you wanna do me wrong
When your gone when your gone
Oh you wanna get it on
