

# July For Kings, Six Hour Drive

I said I've been thinkin bout Memphis  
I know you dont like Catfish  
We could learn about Elvis  
Sit back and see the 9's roll over  
200,000 miles to show for  
This old car, this guitar, and this new summer  
c'mon c'mon

We'll make a 6 hour drive through TN  
I dont believe the car survived  
did it understand my master plan  
To have you next to me  
If only temporarily  
No work, or place to be  
Just one last 6 hour drive

We left about 3 o'clock friday  
it started gettin colder when night came  
along the appalation highway  
it start raining with the windows stuck down  
sit back and laugh until the next town  
Your eyes look nice against the greener ground

c'mon c'mon

We'll make a 6 hour drive through TN  
I dont blieve the car survived  
did it understand my master plan  
to have you next to me  
if only temorarily  
no work, or place to be  
just one last 6 hour drive
