

Jump 5, Dreaming In Color

do do do do
oh oh oh no
I don't watch sad reruns
I wanna feel the new day that comes
And if I make mistakes, well that's alright
I'd rather fall and take the sting
Then let somebody clip my wings
I know eventually I'll learn to fly, yeah-yeah

I see the world, how it could be
Dreaming in color
It looks so beautiful to me
Dreaming in color
In reds and blues, a thousand hues
Coming in clear and bright
We don't have to live in black and white
Dreaming in color
na na nana na na x 6

When everything is lookin gray
And nothing's really goin my way
Everybody tells me that I shoot too high
I don't let it shake me, no, no

There's a secret place that I go
All I have to do is stop and I close my eyes, yeah-yeah

I see the world, how it could be
Dreaming in color
It looks so beautiful to me
Dreaming in color
In reds and blues, a thousand hues
Coming in clear and bright
We don't have to live in black and white
Dreaming in color
na na nana na na x 6

It's there to touch
It's there to feel
The world I've been dreamin of
One day I will make it real

I see the world, how it could be
And I close my eyes, yea

I see the world, how it could be
Dreaming in color
It looks so beautiful to me
Dreaming in color
In reds and blues, a thousand hues
Coming in clear and bright
We don't have to live in black and white
Dreaming in color
na na nana na na x6
