

Jump 5, Spinning Around

You keep me spinning around

Round (echo)

I was thinkin' bout it yesterday
I was thinkin' bout tomorrow
In a dizzy kinda sorta way
Like vertigo
Ive been tryin' hard to figure out
But its drivin' me crazy
Well you'd think I'd know by now

A is last Z is first
Living life in reverse cuz thats the way it works!

Spinning around
I've got this funny feeling
Turning my whole world upside down
I'll keep my heart and my eyes on you
'Cuz you keep me spinning around (spinning around)

What were doing doesnt have a sequel
Don't wanna loose your balance
All you know you gotta keep your equal-librium
Going back to go forward
All these definate maybe's
It's like running around in circles

Make it last
Take it slow
Just forget what you know
Cause' thats the way it goes

Spinning around I've got this funny feeling
Turning my whole world upside down
I'll keep my heart and my eyes on you
'Cuz you keep me spinning around(spinning around)

Every now and then i feel your peacefulness surround me
Then once again it all goes up and down and over under round and around

Go go go
Jump jump
Go go go j5
Spinning around (oh yeah yeah)
Upside down (oh yeah yeah)
J5 in the house (eeeh)
Jump jump jump jump jump jump
Turnin turning up side down (jump)
Spinning spinning spinning me around (around)
Go (jump) go (jump) go (jump) go (jump)
Spinning around
Thats the way to works
Taking it slow and not so fast (fast)
Z is first and A is last (last)
Up and down all around (hey hey!)
Turning my whole world upside down

Oh yeah

It's not the take its the give
Yes thats the way OK the way it is!

Spinning around

I've got this funny feeling (oh yeha)
Turning my whole world upside down (spinning around)
I'll keep my heart, my eyes on you (on you)
Cuz you keep me spinning around

Spinning around
I've got this funny feeling (spinning around)
Turning my whole world upside down (upside down)
I'll keep my heart, my eyes on you
Cuz you keep me spinning around
