

# Jump 5, The Meaning Of Life

Why does the rain fall down? oh oh oh yeah

I tried to find the meaning of life  
Somebody told me I was looking for you  
And now I know whatever I find  
There is nobody who can do what you do

-BRIDGE-

In so many ways  
In so many days  
When I was lookin' for the way to your heart  
But I couldn't see (I couldn't see)  
The way I should be  
Somebody loving you for who you are

-Chorus-

So why does the rain fall down?  
What causes the sun to rise each morning?  
Why did it take so long to give you my heart  
When you gave me the meaning of life?

And deep inside with all that I have  
I'm gonna love you more than ever before  
I didn't know the life that I had  
Would only show me how I needed you more

~\*Bridge & Chorus\*~

You understand me  
You know that I need you  
Your love I'm feeling inside  
And I won't deny the feeling when I  
Begin to understand the way you feel  
For me

~\*Bridge & Chorus\*~
