

Jump 5, Throw Your Hands Up

Are you ready?

Give it up!

..A-A-A-Are you ready?!

(CHORUS)

Throw your hands up and make some noise

Everybody get live and jump for joy

When I say reach you touch the sky

From the front to the back from side to side

Are you ready to get that feeling?

Do you know when the time has come?

There's a second of realizing

Then we're singing it all as one

Everybody come on get on up

Altogether we move in time

This is how you can know where you're at

See you doing it with JUMP5

Can you hear it gettin louder?

The sound of noise increasing

A little piece of heaven now

This is the sound we're gonna raise the ceiling

Can you hear it gettin louder?

The sound of noise increasing

A little piece of heaven now

This is the sound!

(CHORUS)

Do you wanna be with me dancing?

Are you gonna be by my side?

Never stop, we'll keep on moving

Are you ready to take this ride?

Doesn't matter where you come from

Doesn't matter what place you're in

Yeah it's the time to get on

Hear the rhythm and you begin

Can you hear it getting louder?

The sound of noise increasing

A little piece of heaven now

This is the sound we're gonna raise the ceiling

Can you hear it getting louder?

The sound of noise increasing

A little piece of heaven now

This is the sound

(CHORUS)

Rap:

Get on up,

Put your hands in the air!

JUMP5 is gettin down so you better beware!

Gotta do it like this,

See you do it like that

Do it side to side from the front to the back

See you kick it!

See you ride the groove!

Do it anyway you want but I gotta see you move!

If you got it going on

Then you'll never get enough

If you wanna get down

THROW YOUR HANDS UP!

Can you hear it gettin louder?
(Jump5 is gettin down so you better beware! Get on up!)
A little piece of heaven now
This is the sound we're gonna raise the ceiling! (Get on up!)
Can you hear it getting louder?
The sound of noise increasing
A little piece of heaven now
This is the sound

(Throw your hands up!)

(CHORUS 2X)
