

Jump Little Children, By The Way That They Dance

And the one step and he's sliding
And the two steps and she's gliding
3 and the 1 and the 2
And then they float in the air

Side to side and she shows him
Back and forth cause she knows him
Round and round again
All that see them can't help but stare

Cause everyone knows they're in love
Everyone knows they're in love
Yes and everyone knows they're in love
By the way they dance

Cheek to cheek cause he needs her
Hand in hand as he leads her
Face to face cause they know
They'll never dance alone

Cause everyone knows they're in love
Everyone knows they're in love
Yes and everyone knows they're in love
By the way they dance

By the way she moves in circles
Ever so sweetly she wins him completely
By the way he holds her so gracefully
The hand that he lends her is able and tender
Never a step to chance
Cause everyone knows they're in love
By the way they dance

Cause everyone knows they're in love
Everyone knows they're in love
Yes and everyone knows they're in love
By the way they dance

Cause everyone knows they're in love
Everyone knows they're in love
Yes and everyone knows they're in love
By the way they dance
