Verse 1:

Close ur eyes, take a breath, come and take a jump inside  
You won't have to think about tomorrow  
Come along, get on board, cuz it's time 2 take a ride  
Can anything else u know remove the sorrow?  
You will find it's the only way, you've been wrong before  
Only now you can recieve it

Chorus:

Don't run away from love, don't run away  
Just bcuz u don't wanna give in (oh oh ohoooo)  
Don't run away from love, don't run away  
There's gotta be somthin' more 2 believe  
Don't run away, don't run away from love  
uh oh uh oh uh oh (don't run away)  
uh oh uh oh uh oh, yeah

Verse 2:

You've been down, down this road like a thousand times before  
Say u don't have the strength 2 change ur mind  
So what's the deal, what's 2 lose, what are u waitin' 4?  
Do u really wanna be the one who's left behind?  
You will find it's ur lucky day, you have lost before,  
Maybe now you can believe it

You will find it's ur lucky day, you have lost before,  
Maybe now you can belive it
