

# Jump5, Forever In My Heart

You are the hero, ill never be  
but don't You know, I wanna be like You  
and I'm so glad You're a part of me  
ill go with You wherever You want to

You came to save me from myself  
You took the blame (shame)  
You love me like nobody else  
so I say..

(chorus)  
now and forever  
I'm with You  
wherever You lead me, ill go too  
we'll be together  
I know its true  
now I know that You are  
You are forever in my heart

and when I think about all You've done  
You know its hard for me to believe it  
and when I see all the love You give  
I can't deny it, I gladly receive it

(chorus)  
who can do everything that You've done

who can love in the way that You love  
You are forever in my heart
