

Jump5, In My Heart

Oh ya, oh ya

[Verse 1:]

Pick up my dreams

That need a jump start

Give it all that I can

I crash and for what

You stick up for me when I fall hard

Take down all my fear

You're driving my thoughts around in my head

So I won't break down around each bend

With my foot on the pedal I'll race ahead

Drive this life with me

[Pre-chorus 1:]

I am I am aware

I can when You are here

[Chorus:]

You are

You are in my heart

You are

You are in my heart

When every little thing is falling apart

You're beating in my heart

You're beating in my heart

[Verse 2:]

When the clock strikes night and I'm in the dark

Lonely here and there You are

When the lines get cut and I feel far

Reaching out to me

When I feel like a freak

The words you say tell me to believe that I'm OK

When I don't make sense 'cause I'm this way

You see the best in me

[Pre-chorus 2:]

I am I am aware

I can when You are here

[Chorus:]

You are

You are in my heart

You are

You are in my heart

When every little thing is falling apart

You're beating in my heart

You are

You are in my heart

You are

You are in my heart

When every little thing is falling apart

You're beating in my heart

You're beating in my heart

[Bridge:]

There's a lot that I can be

There's a buzz around You and me

You're the sum of all I need

I count the number of things You do for me

You are (oh ya)

[Chorus:]

You are

You are in my heart

You are

You are in my heart

When every little thing is falling apart

You're beating in my heart

You are

You are in my heart

You are
You are in my heart
When every little thing is falling apart
You're beating in my heart
You're beating in my heart
You're beating in my heart
You are...
