

Jump5, Throw Your Hands Up

(chorus first)

are u ready to get that feeling?
do u know when the time has come?
there's a second of realizing
then we're singing it all as one
everybody come on get on up
altogether we move in time
this is how u can know where ur at
see u doing it with jump5

can u hear it getting louder
the sound of noise increasing
a little piece of heaven now
this is the sound we're gonna raise the ceiling
can u hear it getting louder?
the sound of noise increasing
a little piece of heaven now
this is the sound!

(chorus)

throw your hands up and make some noise
everybody get live and jump 4 joy
when I say reach, u touch the sky
from the front to the back from side to side

do u wanna be with me dancing?
are u gonna be by my side?
never stop, we'll keep on moving
are u ready to take this ride?
doesn't matter where u come from
doesn't matter what place ur in
yeah, its the time to get on
hear the rhythm and u begin

(chorus) -I think

RAP:

get on up, put your hands in the air
jump5 is getting down so u better beware
gotta do it like this, see u do it like that
do it side to side from the front to the back
see u kick it..see u ride the groove
do it any way u want but I gotta see u move
if u got it going on then u'll never get enough
if u wanna get down..throw ur hands up!

(chorus)
