

Jump5, Throw Your Hands Up (Remix)

Throw your hands up, are you ready?
Throw your hands up, Are you ready?□

{Chorus}

Throw your hands up and make some noise,
Everybody get live and jump for joy.
When I say reach, you touch the sky
From the front to the back, from side to side.

Are you ready to get that feeling?
Do you know when the time has come?
There's a second of realizing,
that we're doing it all as one.
Everybody come on and get up,
All together we move in time.
This is how you know where you're at,
See you doing it with Jump5.

Can you hear it getting louder?
The sound of noise increasing.
A little piece of heaven now.
this is the sound, gonna raise the ceiling.

Can you hear it getting louder?
The sound of noise increasing.
A little piece of heaven now.
This is the sound!

{Chorus}

Throw your hands up and make some noise.
Everybody get live and jump for joy.
When I say reach you touch the sky.
From the front to the back, from side to side.

{Chorus}

Throw your hands up and make some noise.
Everybody get live and jump for joy.
When I say reach you touch the sky.

From the front to the back, from side to side.

Do you wanna be with me dancing?
Are you gonna be by my side?
Never stop, we'll keep on moving.
Are you ready to take this ride?

Doesn't matter where you come from
Doesn't matter what place you're in
Yeah, its the time to get on
Hear the rhythm and you begin.

{Chorus X4}

Throw your hands up and make some noise.
Everybody get live and jump for joy.
When I say reach you touch the sky.
From the front to the back, from side to side.

Get on up, put your hands in the air.
Jump5 is getting down so you better beware.
Gotta do it like this, see you do it like that.
Do it side to side from the front to the back.
See you kick it... See you ride the groove.
Do it any way you want, but I gotta see you move.

If you got it going on then you're never giving up.
If you wanna get down then throw your hands up!

Can you hear it getting louder?
The sound of noise increasing.
A little piece of heaven now.
This is the sound gonna raise the ceiling.

{Chorus X4}
Throw your hands up and make some noise.
Everybody get live and jump for joy.
When I say reach you touch the sky.
From the front to the back, from side to side.
