

# Junction 18, Don't Go

Please dont go  
You know it took so long to get you girl  
Please dont go  
You know it took years before I met you girl  
If you just come back tonight  
Put the sheets up so we can hide  
Would you go  
Oh baby dont go  
Whered you go  
The search parties endless and we need to know  
Just whered you go  
Its been bottles and beer cans since youve been gone girl  
Did you lose a little hope in time right before you caught the train at nine  
Whered you go  
This town is alone  
I've been told  
The streets have been weeping since you've been gone girl  
Oh Ive been told  
Youre just a ghost whose come to haunt me girl  
Will I ever ever let you go  
Not a burden just a thorn in my throat  
Ive been told  
Youre feeling alone  
I dont know why  
Living with out you is hard  
But I know why  
I keep moving on  
With my heart  
Please dont go  
You know it took so long to get you girl  
Please dont go  
You know it took years before I met you girl  
If you just come back tonight  
Put the sheets up so we can hide  
Would you go oh baby dont go  
If you just come back tonight  
Put the sheets up so we can hide  
Would you go  
I'm feeling so low  
Oh baby dont go  
Please baby dont go
