

Junction 18, Don't Go

Please dont go
You know it took so long to get you girl
Please dont go
You know it took years before I met you girl
If you just come back tonight
Put the sheets up so we can hide
Would you go
Oh baby dont go
Whered you go
The search parties endless and we need to know
Just whered you go
Its been bottles and beer cans since youve been gone girl
Did you lose a little hope in time right before you caught the train at nine
Whered you go
This town is alone
I've been told
The streets have been weeping since you've been gone girl
Oh Ive been told
Youre just a ghost whose come to haunt me girl
Will I ever ever let you go
Not a burden just a thorn in my throat
Ive been told
Youre feeling alone
I dont know why
Living with out you is hard
But I know why
I keep moving on
With my heart
Please dont go
You know it took so long to get you girl
Please dont go
You know it took years before I met you girl
If you just come back tonight
Put the sheets up so we can hide
Would you go oh baby dont go
If you just come back tonight
Put the sheets up so we can hide
Would you go
I'm feeling so low
Oh baby dont go
Please baby dont go
