

June, Cross Bridges

The right choice isn't the easy one
To face the feelings you wanna run from
When every color you know is gone
You know it really can't go on

And i say ooh

'Bout time that i face it (Ooh)
'Cause there's no other way out
Cross bridges
Cross bridges
First up gotta take it (Ooh)
Or I'll be stuck on the ground
Cross bridges
Cross bridges

I put my feet onto foreign fields
I try to follow a different stream
I take one look and it's not as scary as it seems
Really look in deep

And i say ooh

'Bout time that i face it (Ooh)
'Cause there's no other way out
Cross bridges
Cross bridges
First up gotta take it (Ooh)
Or I'll be stuck on the ground
Cross bridges
Cross bridges

It's been building up, yeah way too much
I gotta deal with all this shit i got
It's been building up, yeah way too much
I need to (Cross bridges)
It's been building up, yeah way too much
I gotta deal with all this shit i got
It's been building up, yeah way too much
I need to (Cross bridges)

Wo-o-o-ah (Cross bridges)
Wo-o-o-ah (Cross bridges)

Ain't it strange
Look in the mirror
See a strangers eyes

Tired of feeling nothing
I'm finally feeling something

'Bout time that i face it
'Cause there's no other way out
Cross bridges
Cross bridges
First up gotta take it (Ooh)
Or I'll be stuck on the ground
Cross bridges
Cross bridges

It's been building up, yeah way too much
I gotta deal with all this shit i got (Wo-o-o-ah)
It's been building up, yeah way too much
I need to (Cross bridges)

It's been building up, yeah way too much
I gotta deal with all this shit i got (Wo-o-o-ah)
It's been building up, yeah way too much
I need to (Cross bridges)
