

# Jung Kook, Closer To You (feat. Major Lazer)

Feeling like I'm floating  
Something's in the air tonight  
We're speaking with emotions  
Won't look away

Love me at my lowest  
I'll love you when you're barely holding on  
Lighting up the darkness  
I can be a shoulder when you're not strong

Closer  
Closer to you  
Closer  
Closer to you

Take you like my last breath  
Took me that's the first step  
Closer with the silk dress  
Feeling your warm embrace  
Devil always tempting  
But who gon' end the sentence  
We're not meant to blend in  
Blended with all your friends  
Push and pull to get closer, closer

We tried again  
Said I wouldn't lie  
But I lied again  
Mama told you  
Don't reply to him  
This ain't right  
Who's wrong again  
We been tired  
Restart again  
Negative and the positive  
Bringing us

Closer  
Closer to you  
Closer  
Closer to you  
Closer  
Closer to you  
Closer  
Closer to you
