Junior Varsity, Im Home Hooray

Georgia's coming back to claim my brother's half But my full blood stepped back I work with mercy i'll put you down in the groudn But this mercy's made up Take all of the talk like its the blessed truth But no one tells you Just keep up the peace is what i say to me It's a work i must do

Im headed to the coast
So i can check out all the beaches
Ps mom i love you all the way to jesus
I cut the ground and cracked the earth
A hole in december is worth the work
And all that it appears to be
This pet cemetary
Is where i work

I'm home, hooray

I'm coming home with great intentions

Dont call me a quitter i've got great ideas Just wait til i set one into motion Send on straight to prison

Im headed to the coast
So i can check out all the beaches
Ps mom i love you all the way to jesus
I cut the ground and cracked the earth
A hole in december is worth the work
And all that it appears to be
This pet cemetary
Is where i work

I'm home, hooray

Eyelids that weigh heavy are a blessing And a mattress on the floor To hold me steady up and away

I'm home, hooray
