

Junior Varsity, Say Goodnight

(say goodnight) The Junior Varsity
dim the lighting, inside restless beds
so leave the light on i won't be far behind
everything's changing nothing is still the same
so now sedated every inch of me
silent hauntings, settled, won't leave now
leave me faded melted to the ground

none of them knew what to love
let me think to redefine
let me think to redefine

(chorus)
wait i already said goodnight
i always say goodbye
i already said goodnight, goodnight

we bleed, i'm always running
we bleed, i'm always be right
we bleed, i'm always coming
we bleed, i'm always, always be your one.

(chorus)
wait i already said goodnight
i always say goodbye
i already said goodnight, goodnight

it's not 100% there but it's pretty damn close..well that's what i like to think.
just email me or something if you have any corrections..thanks
