

Junk lyrics, Life is good

I know i can't always win
i can do anything i...
do more then dream i...
think
you make everything, everything just try
so alive
life is good when you're around!
nothing can bring me down
(nothing can bring me down)
i can't believe what i have found
nothing can hold me down
(nothing can hold me down)
one thing i have to know
just how far could we go?
i want to go outside and show the whole world!
that everything i got some say it's not luck but it's what i want
life is good when you're around!
nothing can bring me down
(nothing can bring me down)
i can't believe what i have found
nothing can hold me down
(nothing can hold me down)
you wait to hear my call
you know just what to say
how could
life is good when you're around!
nothing can bring me down
(nothing can bring me down)
i can't believe what i have found
nothing can hold me down
life is good when you're around!
nothing can bring me down
(nothing can bring me down)
i can't believe what i have found
nothing can hold me down
(nothing can hold me down)
