Kaye  
Are you even real  
Do you think that maybe we could be lovers  
once in awhile  
You say  
something I can feel  
I am never here  
and its impossible to heal

Go ahead and understand me  
underneath the killer blue sky  
Go ahead and understand me please

Kaye  
are you even real  
do you even think we'll figure it out  
Im running out of hope  
say  
anything you feel  
maybe you can do it for the both of us  
and I'll untie the rope

Go ahead and understand me  
underneath the killer blue sky  
Go ahead and understand me please

Kaye  
out there in the world  
I am full of their hate, their crime.  
In here we are both light and pure of heart  
Out there in the world I am left for dead  
dont help me  
In here we can be pure of heart.

It's hard enough to breathe right here  
let alone be right here,  
let alone hear you say, "love",  
Its hard trying to be strong right now  
I try to be wrong right now  
I try to be anything that doesnt scare her away

Kaye  
Are you even real?  
Do you think that maybe we could just stay here
