

Jurga, The Longest Day

Weet moments Where are they?
God has plans for me but not today
I'm alone Lazy sight
There's nobody else in the room except mirror me

Today is the longest day of my life
Today is the longest day of my life
Today is the longest day of my life
Today is the longest day of my life

Minute by minute,
Hour by hour, day by...
No today's still here...
I want it so to be finished faster,
But it's no what a day disaster...

Today is the longest day of my life
Today is the longest day of my life
Today is the longest day of my life
Today is the longest day of my life
