

Just Jinger, Go Away

If loneliness means by yourself
There are many people by themselves
If altogether should mean one

Though some of us may find them
We won't know what to do

And I, said I need everyone
Sometimes I need everyone to go,
go away

If comfort means togetherness
Why are some of us togetherless
When altogether should mean one

With some of us around them
We won't know what to do

And I, said I need everyone
Sometimes I need everyone to go,
go away

I need everyone,
Sometimes I need everyone
