

# Just Off Turner, Bad For Business

Dressed like a woman just like you should be  
I won't forget what you told me that night...  
You said, "Everything is alright";

And I must admit:  
I kinda miss the way you made everybody else fade away.  
I wanna feel you again, someday

And if I'm wrong about it I'm just gonna have to pretend  
I don't spend the hours wondering when I'll see you again  
You could be bad for business

So, look like you mean it when you tell me you need me  
Give me a reason to hold on one more day  
I'll believe anything you say

And I must admit, that I can't resist the way you say,  
"Come with me and everything will be alright";  
You're making it hard to fight

And if I'm wrong about it I'm just gonna have to pretend  
I don't spend the hours wondering when I'll see you again  
You could be bad for business

So, if you're playing with me I don't want to know ya  
Already shown you things I didn't want to show ya  
I get the feeling that I'm dealing with the devil  
I bear my soul to you so you can feel special

And if I'm wrong about it I'm just gonna have to pretend  
That I don't spend those hours wondering when I'll see you again

You could be bad...  
You could be bad...  
You could be bad...  
You could be bad...

For business
