

# Just Off Turner, Leave A Light On

I know you could give me everything I ever wanted  
But I just need another day  
Even though I know you think I'm taking you for granted  
I'm not asking you to stay away

Don't be afraid to let me inside

I'll be faithful Go ahead and leave a light on  
Your sweet face will light my way  
And I'll be faithful Go ahead and leave a light on  
I'll be coming home some day

Every now and then I feel your voice rushing through me  
And I can't think of what to say  
Lets me know that no one else ever really knew me  
In such a lovely way, oh no

Don't be afraid to let me inside

I'll be faithful Go ahead and leave the light on  
Your sweet face will light my way  
And I'll be faithful Go ahead and leave the light on  
I'll be coming home some day

But the heart wants what the heart wants now  
And I'll keep you in mind somehow  
Sudden changes don't mean much to me  
I'll never leave

I'll be faithful Go ahead and leave the light on  
Your sweet face will light my way  
I'll be faithful Go ahead and leave the light on  
I'll be coming home some day
