

Just Off Turner, Young & Beautiful

Young love, jaded lover
Fate lies in an open hand

Ten songs of an endless summer
Brought to life by a broken band

These days are guided by a soft word and jealous eye
Those things were never meant for you and I

I can't believe you would do this to me
Don't you remember the way things used to be?

I never knew how to talk to you
Cuz you're young and beautiful And that's what you do

Little girl, you talk too much
Shut up and listen. I just want you to know

That little boys How they lose touch
And it's hard to pay attention when you're putting on your show

These days are guided by a soft word and jealous eye
Those things were never meant for you and I

I can't believe you would do this to me
Don't you remember the way things used to be?

I never knew how to talk to you
Cuz you're young and beautiful And that's what you do

I can't believe you would do this to me
Don't you remember the way things used to be?

I never knew how to talk to you
Cuz you're young and beautiful And that's what you do

Oh, that's what you do
And, that's what you do to me
