

Justifide, Sweet New Found Joy

Well the people have been searchin' before
God sent his son knockin' at the front door
Bringin', Bringin' hope and happiness to all
He said, Follow me and I will be you'll see
The on that will give you lovve for eternity
Now all you got to do is believe in me

(Chorus)

Sweet new found joy
The love he gave to you and me
Sweet new found joy
That's what I have inside of me

Well we're livin' it up we're givin' it up
we're breakin' it down we're breakin' it up
Now choose what side your playin' on
We got to stand up for what we believe
We got to end all this negativity
Yeah so where is all the love anymore
Where is the open hand form next door
Don't you see what we're missing
The love of Jesus, Oh yes we need

(Chorus)
