

Justifide, The Way

When I look at them I can't find
Just why I see the blind leading the blind
And this time I won't be fooled by their kind
In this rhyme I speak against their lies
Not knowing what they speak, they spoke and choked
This is why I don't pay attention to the things they say
And I'll never let them stand in my way, in my path
I'll be the one to stand and fight against their way

(Chorus)

All their lies will never ever rule me
All I need to do is look to Thee,
All they know is everything they hear,
Seek the truth the way that life should be

So now go and see just for yourself
See the way that he has meant for this to be
Don't settle on every single thing they say
'Cuz people will believe anything they hear these days
You just gotta keep lookin' and seekin'
Never stop searchin' and you will find just what you're missin'
It's time to end this misdirection, this contention
You will find your way, so don't stop now

(Chorus)

All their lies will never ever rule me
All I need to do is look to Thee,
All they know is everything they hear,
Seek the truth, the way that life should be

Never will I live by their ways
'Cuz their ways are just too fake
Ya gotta seek the way, the way life should be

(Chorus)

All their lies will never ever rule me
All I need to do is look to Thee,
All they know is everything they hear,
Seek the truth, the way that life should be!
