Justin Bieber, Attention (feat. Omah Lay)

Lately I've been losing my mind Certain things I can't find In the Middle of the night I'm still up I'm still trying to decide

Should I drink up Smoke up I need some freedom Freedom ah! In my life

Should I drink up Smoke up I need some freedom Freedom

Show me a little attention a little attention Show me attention Show me a little attention yeah Show me a little attention

little love and some affection on the side little trust and some passion would be nice Its all I desire I need it I cannot deny

Oh a I don see something For my eyes only Ain't no emoji Can tell how I feel Ah Ain't no emoji For my eyes only

Show me a little attention a little attention Show me attention Show me a little attention yeah Show me a little attention

Lately I've been losing my mind Searching things I can't find In the Middle of the night I'm still up I'm still trying to decide

Should I drink up Smoke up I need some freedom Freedom ah! In my life

Should I drink up Smoke up I need some freedom Freedom

Show me a little attention a little attention

Show me attention Show me a little attention yeah Show me a little attention
