

# Justin Hayward & John Lodge, You

You don't even know my name,  
Time was when you would  
Take the love you've given all away,  
Take a part of me.

You don't even walk my road,  
Can't find where you turned,  
Looked away and you were gone,  
Now we're on our own.  
Old man, is this why we're alone?

I, I believe  
What is lost for ever has brought this change in me,  
I, I believe  
What is lost for ever has brought this change in me,

You don't even know my world,  
I've tried hard to see  
If I'd found the world you're looking for,  
There'd be a change in me.

You don't even know my name,  
Time was when you would  
Take the love you've given all away,  
Take a part of me.  
You've gone and changed the world I see.

I, I believe  
What is lost for ever has brought this change in me,  
I, I believe  
What is lost for ever has brought this change in me.
