Justin Hayward, Lost & Found

I was lost
I was wandering in the dark
I was searching for the spark
That would light my life
I was lost
I didn't know where I was from
I was always on the run
Tryin' to find myself
I was out on my own
Then you brought me back home
I was lost
But now I'm found
I'm so glad that you're around
To shelter me

I was lost
I didn't know the words to say
I just couldn't find a way
To express myself
I was blind
I just couldn't read my mind
I didn't know what I would find
When I met myself
I was out on my own
Then you brought me back home

I was lost
But now I'm found
I thank God that you're around
To shelter me

I love the way you tell me
That you love me, yes I do
And I love the way you ask me
If I love you, yes I do

I was lost
There was so much I had to learn
I didn't know which way to turn
Till I turned to you
I was wrong
I should have seen it all along
I couldn't find where I belonged
'till I belonged to you
I was out on my own
Then you brought me back home
I was lost
But now I'm found
I thank God that you're around
To shelter me
